

GenII External Temperature Transmitter Type OD04

Easy to use customised data loggers

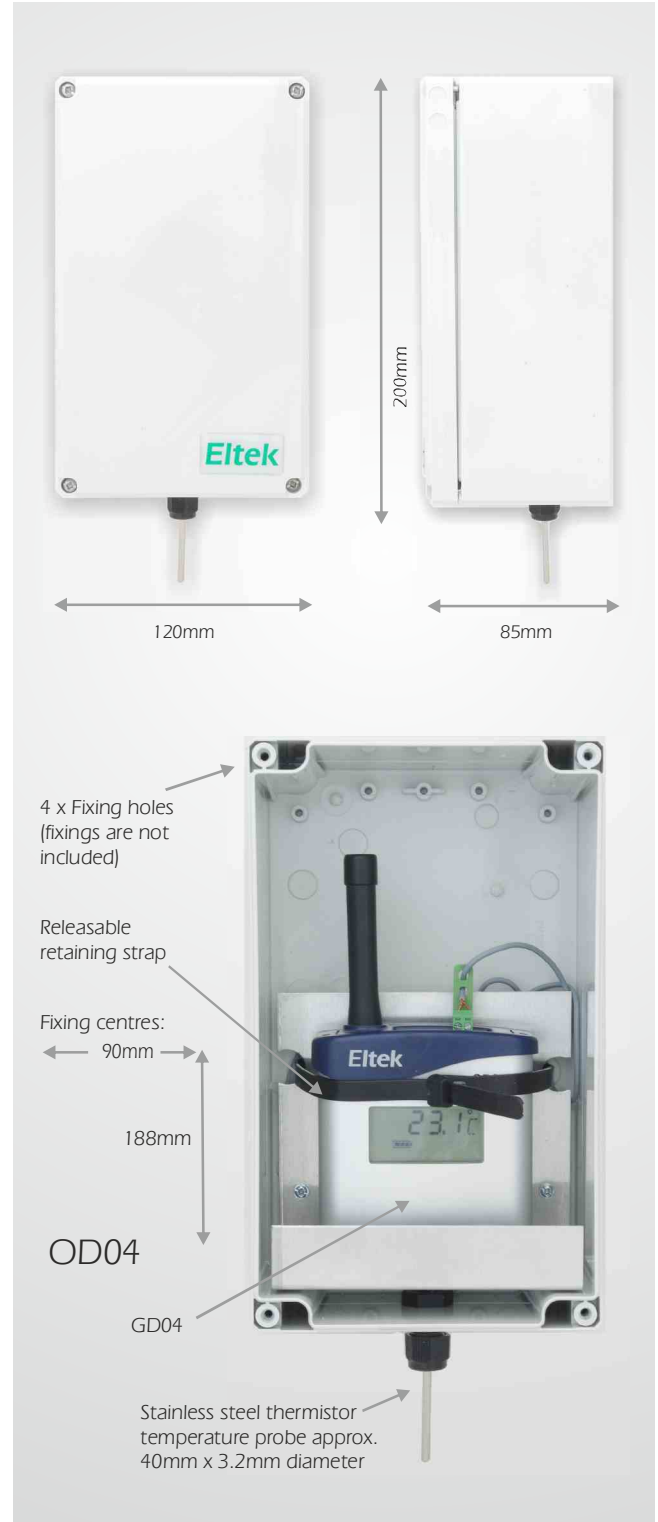

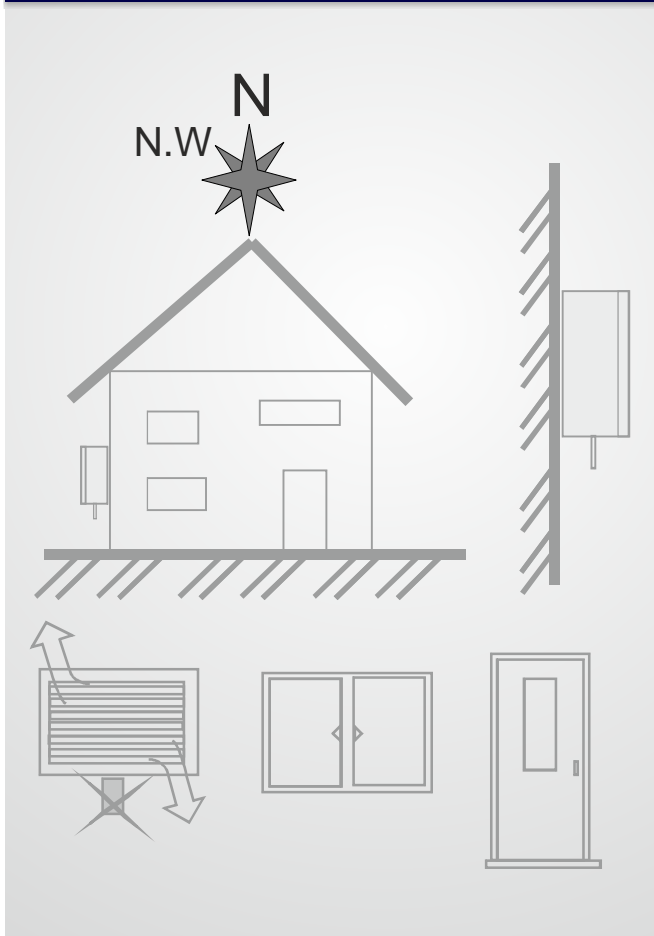

The OD04 is an IP65 rated polycarbonate enclosure with self powered GD04 transmitter and thermistor temperature probe. The enclosure is provided with 4 fixing holes that are obscured when the cover is fitted.

Specification

Operational temperature range: -30 to +60 degrees C
Temp measured at point of transmission.
Battery endurance: >2 years (Tx interval 5 minutes)

Range	Resolution	Accuracy
(-15 to +40°C)	0.1°C	±0.3°C
(-30 to -65°C)	0.2°C	±0.5°C

Mounting Considerations

Due to our policy of continuous improvement specifications may change without prior notice. Eltek believes that all information declared is correct at the time of issue, no liability is accepted for errors and omissions.

TD1122GB 08/01/14

CE Guarantee: Equipment manufactured by Eltek is guaranteed against faulty materials or workmanship for three years. For repairs carried out under guarantee, no charge is made for labour, materials or return carriage.
